	55	347	600Y/247V				Mechanical	CAVL7-60-M40-*-L10 ①	873.78
General	85	600	600						

Description
The CAL7 electrically held contactors and CAVL7 mechanical held contactors are cUL rated and labeled for tungsten and ballast lighting duty applications at 20, 30, and 60 amperes respectively.

Larger sizes available. Contact your Sprecher + Schuh representative. See catalog page C44 for enclosed lighting contactors.

Operation of Mechanically Held Contactor with “ON-OFF” Pushbutton

Catalog number “CAVL7” consists of a CAL7 contactor with CV7-11 mechanical latch. Depressing the “ON” button energizes the “L” coil and the contactor closes. The mechanical latch locks the contactor in the closed position. The “L” coil is then de-energized by the coil, clearing contact “UL” (Terminals 65-66) to remove voltage. Depressing the “OFF” button energizes the “UL” coil, and the mechanical latch releases the contactor. The “UL” coil is immediately de-energized by the coil clearing contact “L” (Terminals 13-14) to remove voltage. The contactor is now open.

CA(L)7 Coil Codes ②

AC Coil Code	Voltage Range	
	50 Hz	60 Hz
24Z	24V	24V
120	110V	120V
208	~	208V
220W	~	208V-240V
240	220V	240V
277	240V	277V
380	380V-400V	480V
480	440V	480V
600	550V	600V

Ordering Instructions

Specify Catalog Number	
Replace (*) with Coil Code	See Coil Codes on this page.

- ① The N.O. auxiliary on the mechanical latch is used by the control circuit and is not available to the customer for other uses.
- ② Other voltages available, see page A56.
- ③ Engineering practice permits $2.5 \times I_n$ to be applied to a contactor when 3 poles are connected in parallel for single phase discharge lamp (ballast lighting) applications. For example CAL7-20-M40-* Lighting Contactor plus a CA7-P-B23 Paralleling Link can be used on a 50A ballast load. Applying parallel conductors to incandescent lamp loads does NOT result in a greater permissible load. Paralleling Links can be found in the Accessories section.
- ④ Lighting contactor applications greater than 4-poles can be achieved. Contact Sprecher + Schuh representative for assistance.
- ⑤ Definite Purpose Contactors can also be used in Lighting Contactor applications. See page A183.
